INTEGRATED MANAGEMENT SYSTEM POLICY

Metacontrol Ingenieros S.A. is a company focused on meeting its clients' requirements through the continuous improvement of the quality and execution deadlines of its services. In addition, its objective is to work on preventing the occurrence of injuries and occupational diseases in Occupational Health and Safety matters, protecting the life and health of its workers, clients, visitors, and contractors.

The services provided by Metacontrol are the following:

- ✓ Development of Conceptual, Basic, and Detailed Engineering for Civil and Mechanical Works.
- ✓ Infrastructure Engineering for Works in the Telecommunications Industry, including new works and reinforcements of existing structures.
- ✓ Technical Inspection of Works.
- ✓ Consulting Engineering and certifications of works and supplies for seismic and other conditions.
- ✓ Forensic Engineering.
- ✓ Commercialization, consulting, installation, support, training, and implementation of information technology tools.

This commitment is based on the continuous improvement of the effectiveness of the Integrated Management System, based on ISO 9001 (Quality) and ISO 45001 (Occupational Health and Safety) standards, complying with the applicable legal and regulatory requirements and those undertaken by Metacontrol Ingenieros.

Furthermore, it promotes communication, participation, and consultation with workers on occupational health and safety matters.

General Management makes this Integrated Management System Policy known and available to all workers, collaborators, visitors, authorities, and the community in general, fostering timely participation and awareness in matters of Quality Management, Occupational Health and Safety.

Rodrigo Flores Coombs
General Manager
